Personal Profile

I am an enthusiastic undergraduate pursuing a Higher National Diploma in Information Technology (HNDIT) with a strong foundation in both technical and creative skills. I have experience working in collaborative environments and am passionate about learning new technologies. My goal is to contribute meaningfully to dynamic teams by leveraging my problem-solving mindset and diverse skill set.

Key Skills

- Basic programming knowledge (Java, JavaScript, PHP)
- Familiar with computer systems, databases, and software tools
- Strong analytical thinking and problem-solving skills
- Quick learner, adaptable, and open to new technologies
- Good attention to detail and ability to work independently

Practical Experience

School Library Management System (Individual Project)

- Developed a web-based library management tool for handling book inventory and student records.
- Practiced full-stack development and user interface design.
  React.js, PHP (Laravel), MySQL

Bookshop Management System (Group Project)

- Collaborated with team members to build a basic inventory and sales tracking system.
- Gained experience in teamwork, database integration, and desktop application development.
  Csharp, Visual Studio, MySQL

Student Management System (Individual Project)

- Designed a system to manage student records and academic data.
- Learned basic database design and UI structuring.
  Microsoft Access

Logo Designing Workshop – Wellington International Campus (2022)

- Participated in hands-on logo design activities.
- Enhanced creativity and familiarity with design tools.
  Adobe Illustrator, CorelDraw

Education

Higher National Diploma in Information Technology, **SLIATE**	2023 - Present
Diploma in English, **ICAS College**	2022
Logo Designing Workshop **Wellington International Campus**	2022
Computer Graphic Designing **Technical College, Wariyapola**	2022

Technologies

Languages:
PHP, JavaScript, HTML, CSS, MySQL, Csharp, Java

Databases:
MySQL

Frameworks:
Node.js, React.js, Laravel

IDEs:
Visual Studio, Visual Studio Code, NetBeans
